Abstract: This work is the result of ethnographic research fieldwork carried out in the territory of TREVINO. The method used has been that which the ETNIKER groups, as created by José Miguel de Barandiarán, usually use. The fields that have been researched were: festivities, popular religiousness, tales and legends, occupations, traditional agriculture and river fishing. The work also has an extensive bibliographical list on Treviño.

Key words: Treviño. Lapuebla. Ethnography. Festivities. Religiousness. Tales. Legends. Occupations. Agriculture. Fishing.
