

LABOUR PARTY YOUNG SOCIALISTS  
SPANISH YOUNG SOCIALISTS DEFENCE CAMPAIGN

# DEMONSTRATION

**RELEASE ALL POLITICAL PRISONERS  
SMASH THE FRANCO DICTATORSHIP  
FOR A SOCIALIST SPAIN**

After 35 years of Fascist terror, the Spanish workers are rising to their feet again. Hundreds of thousands have been on strike in the last few years. Students, housewives, shopkeepers, professionals, actors and priests have all demonstrated against the regime. Dozens have been shot by police in recent years, but now the workers' movement cannot be intimidated. All commentators agree that the regime is finished.

Now, in a last ditch attempt to save the Franco dictatorship, and their own necks, the police-backed up by the diehard ultra-rights are carrying out a reign of terror in the Basque province of Spain. Thousands of workers have been arrested, beaten up and tortured. The Bilbao Bull ring has been used as a concentration camp. In its death throes the Franco regime has shown it is capable of the most brutal repression and disgusting atrocities. Now more than ever the workers of Spain need the solidarity of their class brothers abroad.
